LAXMAN KUMAR BATTULA

DevOps Engineer | AWS | Azure | Kubernetes | Terraform | CI/CD | DevSecOps | GitOps

Pune, India | +91 92264 68383 | laxmankumarbattula04@gmail.com

PROFESSIONAL SUMMARY

DevOps Engineer with **4+ years of experience** in cloud infrastructure, CI/CD automation, containerization, Kubernetes, Infrastructure as Code, DevSecOps, GitOps, monitoring, and production support. Hands-on experience with **AWS, Azure, Terraform, Ansible, Jenkins, GitHub Actions, Azure DevOps, Docker, Kubernetes, RKE2, Helm, and Argo CD**. Skilled in AWS infrastructure, VPC networking, EKS/AKS deployments, CI/CD pipeline automation, security scanning, infrastructure monitoring, troubleshooting, incident management, and RCA. Strong knowledge of **Linux, Bash, Python, Maven, Gradle, PostgreSQL, SonarQube, Trivy, Snyk, Prometheus, Grafana, Dynatrace, New Relic, and CloudWatch**.

TECHNICAL SKILLS

- **Cloud:** AWS, Microsoft Azure
- **AWS Services:** EC2, S3, RDS, VPC, IAM, ECS, EKS, ALB, ACM, CloudWatch, SNS, ECR, Route 53, Auto Scaling, AMI, EBS, Security Groups, NACLs, NAT Gateway, Internet Gateway
- **Azure:** AKS, Azure VMs, VNet, Resource Groups, ACR, Azure DevOps, Azure Pipelines, Service Connections
- **CI/CD:** Jenkins, GitHub Actions, Azure DevOps Pipelines, GitOps, Argo CD, Maven, Gradle
- **Containers & Kubernetes:** Docker, Docker Compose, Kubernetes, RKE2, Helm, EKS, AKS, KEDA, StatefulSets, Deployments, Services, ConfigMaps, Secrets, PV/PVC, RBAC
- **Networking:** HAProxy, Kong Ingress Controller, NGINX Ingress, Load Balancing, Path-Based Routing, Health Checks
- **DevSecOps:** SonarQube, Trivy, Snyk, SAST, Nexus Repository Manager, OIDC, RBAC, Secrets Management
- **IaC & Automation:** Terraform, Ansible, Bash, Shell Scripting, Python
- **Monitoring & Logging:** Prometheus, Grafana, Dynatrace, New Relic, CloudWatch, ELK Stack, Nagios, SNS Alerts
- **Database & OS:** PostgreSQL, Amazon RDS, Linux, Ubuntu
- **Version Control & Tools:** Git, GitHub, Jira, Agile

PROFESSIONAL EXPERIENCE

VISIONARY WORLD INFOTECH PVT. LTD. — DevOps Engineer | **Jan 2026 – Present | Pune, India**

- Manage **AWS/Azure cloud infrastructure, Kubernetes, Docker, Terraform, and CI/CD pipelines**.
- Automate deployments using **Jenkins, GitHub Actions, Azure DevOps, Helm, and Argo CD**.
- Monitor applications and infrastructure using **Prometheus, Grafana, CloudWatch, Dynatrace, and New Relic**.
- Troubleshoot cloud, Kubernetes, deployment, networking, and production issues.

XPHENO PRIVATE LIMITED — DevOps / Cloud Engineer | **Jun 2025 – Dec 2025**

- Supported **cloud infrastructure, CI/CD, Docker, Kubernetes, and deployment automation**.
- Performed Linux administration, monitoring, log analysis, troubleshooting, and production support.
- Assisted with Kubernetes workloads, releases, and environment configuration.

MPHASIS LIMITED — DevOps / Cloud Engineer | **Mar 2025 – May 2025**

- Supported **AWS/cloud operations, CI/CD workflows, Docker, Git, Linux, and monitoring**.
- Assisted with application deployments, infrastructure troubleshooting, and release activities.
- Performed log analysis and incident resolution in enterprise environments.

SYNERGY UNIVERSAL — DevOps Engineer | **Nov 2023 – Oct 2024**

- Provisioned AWS infrastructure using **Terraform** and managed EC2, VPC, IAM, EBS, Auto Scaling, and CloudWatch.
- Automated server configuration using **Ansible** and application deployments using **Jenkins and Docker**.
- Supported **Kubernetes deployments, Services, Ingress, ConfigMaps, Secrets, and rollouts**.
- Performed monitoring, production troubleshooting, incident management, rollback, and RCA.

HUMANUS GLOBAL PRIVATE LIMITED — DevOps Engineer | **Jan 2022 – Oct 2023**

- Worked on **AWS/Azure, Docker, Kubernetes, Terraform, Jenkins, Helm, and Argo CD**.
- Built **CI/CD and DevSecOps pipelines** with SonarQube, Trivy, Snyk, SAST, and Nexus.
- Deployed microservices on **AWS EKS and Azure AKS** using Helm and GitOps.
- Managed Kubernetes resources and resolved **CrashLoopBackOff, ImagePullBackOff, PVC, ingress, and deployment issues**.
- Implemented monitoring using **Prometheus, Grafana, Dynatrace, and New Relic**.

KEY PROJECTS

Multi-Cloud DevSecOps Microservices Platform

Description: Designed an end-to-end DevSecOps platform for a microservices application containing frontend, API gateway, backend services, and PostgreSQL. Automated build, testing, security scanning, containerization, artifact management, and Kubernetes deployment across AWS and Azure.

Responsibilities:

- Built CI/CD pipelines covering **build, testing, SonarQube, SAST, Trivy, Snyk, Docker build, registry push, and deployment**.
- Provisioned AWS and Azure infrastructure using **Terraform**.
- Deployed microservices on **AWS EKS and Azure AKS** using Kubernetes and Helm.
- Implemented **Argo CD GitOps** for continuous deployment and synchronization.
- Integrated **SonarQube, Trivy, Snyk, and Nexus** into DevSecOps pipelines.
- Implemented **OIDC, RBAC, and Secrets Management** for secure access.
- Created **Prometheus and Grafana** dashboards for Kubernetes and application monitoring.

AWS RKE2 Kubernetes Microservices Platform

Description: Designed and deployed a production-style **RKE2 Kubernetes cluster on AWS EC2** for a containerized GameFeed microservices application with frontend, API gateway, Java backend services, and PostgreSQL.

Responsibilities:

- Deployed RKE2 Kubernetes cluster with **control-plane, worker nodes, and HAProxy load balancer**.
- Containerized application components using **Docker**.
- Created Kubernetes manifests and **Helm charts** for application deployment.
- Built Jenkins pipelines for **Maven build, Docker image creation, registry push, and deployment**.
- Implemented **Argo CD GitOps** for continuous Kubernetes deployments.
- Configured **HAProxy and Kong Ingress Controller** for load balancing and path-based routing.
- Implemented **KEDA autoscaling** and managed Deployments, Services, ConfigMaps, Secrets, StatefulSets, PV/PVC, and RBAC.
- Implemented monitoring using **Prometheus, Grafana, Dynatrace, and New Relic**.
- Troubleshot **CrashLoopBackOff, ImagePullBackOff, Pending Pods, PVC binding, ingress routing, resource issues, and Argo CD synchronization failures**.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner**
- **AWS Certified Developer – Associate — In Progress**

EDUCATION

Bachelor of Technology (B.Tech) | 2021

St. Mary’s Engineering College
